PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size*, heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes*, or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume I will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, NOV. 7, 1833.

STEAM POWER IN AND NEAR PITTSBURGH.—We publish, to day, the list of Steam Engines in and adjacent to our city, which Mr. Church politely handed us a few days ago.—There were two others, Wainwright's and Fisk's, mentioned in this this statement, but as neither their power, nor their consumption of coals, nor the purposes to which their power is applied, were mentioned, we have not included them in the list. There may be, and probably are, some others, in the city and adjacent to it, not embraced in this statement; and in the county we know that there are many more. Will some of our friends have the goodness to forward to us information about a ny which they know of not mentioned in our paper to day?

CONNECTION WITH THE OHIO CANAL.—There is, in the Advocate of this morning, a long article, in favor of the Massillon Rail Road, in preference to a Canal. The writer, in his remarks, refers only to the Mahoning rout, and his objections are confined to it. We do not wish to enter into a discussion of this matter—public attention has been attracted to it. The necessity, the indispensable necessity of such an improvement, is seen by all—something must and will be done, and we are now willing that it should be left to the good sense and sound judgment of those upon whom the decision will ultimately rest.—As the writer in the Advocate has thought proper to offer some arguments in favor of the Rail Road, we propose to make some very brief remarks in reply.

The first objection to the Mahoning Canal is that "*it is not central.*" This objection is a very vague one. Central to what? It is certainly not central to the length of the Ohio Canal, nor is it central to the counties of Columbiana, Starke, Wayne, &c., nor is it central to the state of Ohio, geographically speaking. This, however, is not material, the proposed connecting link is not made merely with reference to the trade of counties along the Canal, but for securing also the trade—the rapidly increasing trade of the whole northwestern country, of Ohio, of Michigan, and of the immense territory, west of Lake Michigan. Twelve years hence, the trade of the country along the Ohio Canal, will be but a drop in the bucket when compared with the immense trade of the northwestern counties of Ohio, of Michigan, and of the great west. To secure the whole of this trade, is the design of the projectors of the connecting improvement. To this trade, the Mahoning rout is, or by the time it is completed, will be, central.—Besides, when a canal is completed to Akron, all the trade from the counties south of that point, must pass by that place; it has no other rout to a market unless it comes direct to Pittsburgh, or goes down the Canal, to Zanesville or Portsmouth. If, then, it arrives at Akron, and the Canal is opened to Pittsburgh, and thence to Philadelphia, who can doubt that the owner would prefer this rout, rather than encounter the dangers of a Lake navigation, and the delays caused by the ice closing up the east end of the Lake.

Suppose, for a moment, that we had a Canal to Akron, and a Rail Road to Massillon, and that a ton of produce had arrived, in a Canal boat, at the latter place, which course would the owner select to get to Pittsburgh. This is the most favorable ground on which the question can possibly be placed for the Rail Road. Now let us see the result.

The distance from Massillon to Pittsburgh, by the Railway, is 108 miles, and, by the Mahoning rout, it is 168 miles.—The Pennsylvania Canal Commissioners say that the expense of transportation, on the Port Carbon and Tuscarora Rail Road, is fifty five cents, per ton, for ten miles; and, on the Pennsylvania Canal, fifteen and three fourth cents, per ton, for ten miles—in both cases including tolls and freight.—At the same rate, to transport the ton of produce, from Massillon direct to Pittsburgh, would be - - $5 94
And by the Mahoning Canal - 2 64
3 30

The tolls, however, on the Port Carbon Rail Road may, perhaps, be high—they are 15 cents per ton. Suppose, then, it were made free—then the expense of transportation by the Rail Road from Massillon to Pittsburgh, direct, would be $4 32
By way of the Mahoning Canal, $2 64
$1 68

Still being about 70 per cent. in favor of the canal, without any charge being made for the transshiment from the canal boat to the Rail Road at Massillon.

We have been led so much farther into this matter than we intended at first, that we must postpone further remarks until to morrow.

Pennsylvania Canal Tolls.—The amount of Deposits, by Collectors of tolls received during the month of October, is $31,350,50. The whole amount of deposits for the season, from that source, is $149,625,91. From several Collectors, no certificates of deposits have yet reached the Treasury Office, for October, the amount of which would swell the receipts for tolls, to nearly one hundred and sixty thousand dollars.

From this statement there can be little doubt, but the receipts, by the meeting of the Legislature will fall little short of the estimate, $200,000. Last year, the receipts for tolls was about $55,000—When the interruption to the navigation by extraordinary floods is taken into consideration, we may well conclude, that under ordinary circumstances, the estimate of the State Treasurer, in his excellent report of finance, would have been fully realized.—*Pennsylvania Reporter.*

We hear, almost every day, rumors of the bankruptcy of the Post Office Department. Since the head of that institution was appointed a member of the Cabinet, the whole of its immense patronage has been directed towards the accomplishment of party purposes. The very natural consequence is, that its business is neglected—its offices bestowed on incompetent men—and its funds corruptly, and we fear ruinously wasted.—*Richmond Compiler.*

U. S. Senator.—It is the general impression throughout the state, that Gen. SAMUEL M'KEAN will be elected U. States' Senator on the first ballot, by the legislature of Pennsylvania.—*Phila. Amer. Adv.*

Latest News From Europe!!

From the New York Evening Star.

The ship Silas Richards, Capt. Bursley, arrived last night from Liverpool, whence she sailed on the 25th Sept., bringing Liverpool papers to the 25th and London to the 24th, being nine days later.

The news by this arrival is of little importance.—Bourmont had sent in articles of capitulation, which had been rejected by Pedro. Insubordination was supposed to exist in the ranks of Miguel, and the 13th regiment had so far evinced its desire to join the opposing army, that it was found necessary to disarm them, and they were ordered in the rear.

Several skirmishes had taken place without advantage to either side. Lisbon has been so strongly fortified, that it is considered impregnable, and an attack by Miguel, would be considered madness.

Lord Wm. Russell and Admiral Parker had refused to act as meditators between the Portuguese brothers, but had despatched a steamer to England for orders.

A slave ship, with 307 slaves, was captured by H. B. M. ship Trinculo, Lieut. Thompson, and carried into Sierra Leone.

A Russian 74 had been lost on the coast of Finland, and out of a crew of 750 men, 15 only were saved.

Louis Phillippe has had an altercation with his principal minister, on the subject of a diplomatic correspondence carried on without the participation of the department of foreign affairs.

Cholera continues to rage in Spain.

In the internal affairs of England and France nothing has occurred worthy of notice.

No progress appears to have been made in the settlement of affairs between Holland and Belgium. The meeting of the two Emperors and the King of Prussia, seems to have lost a good deal of the interest which it first occasioned; we dare say it still retains more than it deserves.

Portugal.—Lisbon, Sept. 12.—The Echo steamer is suddenly ordered off, it is supposed with despatches, as Col. Hare has been going backwards and forwards between the contending parties, which gives some appearance of authority to the reports which are circulating of some proposals for negotiation.

Meanwhile no other attack has been made by Bourmont since his discomfiture on the 5th. A spirit of insubordination is supposed to exist in his army. The deserters come in considerable numbers every day, and this wish was so strongly shown by the 13th Regiment, that it has actually been disarmed and ordered to the rear.

The line of fortification is increasing in strength every day, and may be considered as impregnable, so that the worst that can happen is a protraction of this unfortunate struggle, in which Don Miguel must eventually succumb. The opinion is therefore very general, that if favorable terms were granted to him, he would retire from the contest. Don Pedro is, however, known to be averse to come to any other terms with his brother than the fate of war, so that very likely nothing will be done towards this negotiation for the present.

There is very little doubt that Miguel may be able to keep his army together for a considerable time yet, having all the provinces in his rear at his command, and the abundance of the harvests of corn and fruit materially assisting him; he has, besides, received a reinforcement of French officers, by a steamboat, which has contrived to elude the vigilance of the blockade, and entered the little port of San Martinbo.

Capitulation of Marshal Bourmont.—We have just learned that the Echo brought intelligence that on the 11th inst. Marshal Bourmont sent in fifteen articles of capitulation, which Don Pedro at once rejected, stating that he would promise nothing more than that Don Miguel's life should be spared. Upon this, Lord William Russell was applied to, and on his representation and advice to Don Pedro, it is believed that articles of capitulation were signed, as the Echo was immediately sent to England with despatches for His Majesty's government. As the Echo left the Tagus, flags were flying, and other testimonies of public rejoicings were manifest. Should this news prove correct, of which we have no doubt, the arrival of Donna Maria in Lisbon will consummate the peace of Portugal.—*Falmouth Packet.*

Cessation of Hostilities in Portugal.—We stop the press for the purpose of announcing information we have just been favored with by a gentleman direct from Plymouth, who obtained it from the officers on board of the Echo.—*Exeter Gazette, Saturday, 4 o'clock.*

He states that Gen. Bourmont and Don Miguel had made propositions to Don Pedro, and Lord Wm. Russell, our Plenipotentiary at Lisbon, for an amicable termination of the contest.

Lord Russell did not consider himself at liberty to consent to these propositions without the authority of the English Government; and, on that account, the Echo steamer was immediately despatched to this country, that a statement of the terms proposed by Don Miguel might be laid before the British Cabinet; and, therefore, until an answer is returned to our Ambassador, there will be a cessation of hostilities.

Immediately on the arrival of the Echo at Plymouth, an express was despatched to London.—Don Miguel is understood to have made six propositions—that his estates should be reserved to him, that the past shall be forgotten, and his adherents protected, &c.

The French General Clouet, one of the commanders in the Miguelite army, was killed in the battle of the 5th inst.

As the Echo passed Oporto, the water was quite discolored with the Port Wine, which had been flowing into the sea in streams; 13,000 pipes were said to have been destroyed.

Our informant, who is a most respectable merchant, connected with Oporto, states that the truth of this intelligence may be relied on.

CONSTANTINOPLE, Aug. 25.—On the 19th, there was another great fire at Azab Kabussi, near Galata, which destroyed above 300 houses. The fire was, to all appearance, the work of incendiaries, as combustibles were found concealed in many other places. Since then, we have reports of a new conspiracy, respecting which, the government has some details. How far the statements circulated are true, must be left to time to show, but it is certain that the government believes them. It is said that many individuals accused of being concerned in this conspiracy, have been secretly put out of the way, and that such cases are of almost daily occurrence. Such a mode of proceeding makes, indeed, a strong contrast with the firman lately addressed by the Sultan to all the Pachas, which orders that formal proceedings are to be instituted against all persons accused of any crime whatever, and that no sentence shall be carried into execution if not pronounced by a competent tribunal, and no sentence of death to be carried into effect without the previous sanction of the Sultan; Daud Pacha, the newly appointed governor of Bosnia, is gone to that province. Tahir Pacha, the High Admiral, who went to Nicomedia to put an end to the piracies in the neighborhood of Prince's Island, has not yet effected any thing, the piracies still continue, with an audacity that surpasses all belief. Preparations are now making for a caravan of pilgrims to Mecca, which is expected to be very numerous, having been twice prevented on account of the war in Syria.

LONDON, Sept. 24.—Accounts from Algiers to the 6th inst. mention the arrival of the persons composing the commission sent by the Government, to enquire into the state of the colony, and to report whether it was advisable to retain it or not. It was stated that the Commissioners had declared that it would be highly dishonorable for France to abandon its conquest, and, besides that, public opinion was so decided, and so pronounced upon the subject, that no Minister would venture to propose it to the Chambers.

WEST INDIA COLONIES.—The amount advanced out of the vote of last session, of one million, for the assistance of certain West India proprietors, has been—to Jamaica, £79,200; to St. Vincent, £117,600. There are, besides, granted on further application, the securities for which are not yet completed—for Jamaica, £119,000; for Barbadoes, £109,250; for St. Vincent, £76,700; and for St. Lucia, £20,000; making a total of £325,150.

Trade with Russia.—By the advices which have been received from St. Petersburgh to the 1st inst. a notice is issued by order of the Russian government, which has come to hand, rendering more strict the prohibition of British woollen manufactures into the ports of Russia.

Death of the Empress of China.—On the 15th July, died, at Pekin, the Consort of the Emperor of China. A general mourning has been ordered in consequence. The Mantshur *employes* are for 27 days to wear garments of coarse white linen, and caps without tassels or buttons; during 100 days they must not shave their heads. The Chinese people must leave their heads unshaved for the same period, and are to wear no tassels on their caps for seven days. The right of nominating the Empress belongs to the Emperor's mother, who solicits, within three years, one of the five spouses of her son for that office.—*Russian paper.*

FRANCE.

It was computed that the removal of the Obelisk from Thebes to Paris, which is now prosecuting, will cost two millions and an half of francs.

Great improvements were in progress in the city of Paris, both in the building of warehouses for use, and the erection of arches for embellishment. The works at the Triumphal Arch, Barriere l'Etoile were going on with great activity.

A Royal Ordinance was signed on the 20th for increasing the artillery from eleven to fourteen regiments. This however is not regarded as any warlike indication.

Paris, September 20.

It is quite certain that there has been a serious altercation between Louis Philip and M. de Broglie, on the subject of a diplomatic correspondence carried on by the King, without the participation of the Department of Foreign Affairs. M. de Broglie has even tendered his resignation, but has been retained by the solicitations of several Members, one of whom was M. Guizot, who considered this act as the signal for the dissolution of the Doctrinaire Ministry.

Dickinson College.—This institution will be reopened by next spring, under the most favorable auspices. The efforts made to raise a fund to endow the Professorships, have been crowned with success beyond the most sanguine expectations of its friends.

The Methodists, proverbial for perseverance and consequent success, will, we have no reason to doubt, be equally as successful in sustaining the Institution, as in resuscitating it; and thus Dickinson College will be able to vie with its rivals in useful learning and growing greatness.

The College Edifice is thoroughly repairing; the Campus is to be improved in appearance by a mural inclosure, and other correspondent improvements which will adorn the place considerably.—Dickinson bids fair to be the pride and boast of Pennsylvania. We would say to it, and all similar Institutions, "GO ON AND PROSPER."—*Carlisle Herald.*

Paris, Sept. 21.—An interesting occurrence took place at the Ecole de Medecine. A young man, of an olive complexion, speaking very pure French, though with a foreign accent, underwent his final examination, and obtained his diploma as doctor. He is a Mussulman, born at Cairo, and one of the Egyptians sent to France by Mehemet Ali. He is the first Mussulman who has taken a degree in Europe, at least since the revival of letters in the West.

The Southern papers confirm the accounts given in a letter of a correspondent of the National Intelligencer, which we copied some days ago, of the judicial proceedings in Alabama against the individuals in the service of the United States, who were present at, or instrumental in, the death of Hardeman Owens. The Superior Court for Russell county, had entered on the investigation of the affair, Judge Harris presiding. The Solicitor General, Col. Picket, first addressed a letter to Major M'Intosh, the Commander of the Fort, requesting, him to surrender to the Sheriff of the county, the file of soldiers who were present at the death of Owens; and at the same time transmitted to him a copy of the Washington Globe, said to contain an article stating that the Commander of the fort had received orders from Washington to aid the State Court in the investigation. To this communication, Major M'Intosh replied that he would not surrender the men, as he had received no such orders, and the soldier who shot Owens did it in the execution of his duty.

Process was then issued for certain soldiers and suspected persons in the Fort, without success, the Major informing the Sheriff, upon a demand being made, that he would not give up a man; an attachment was then issued against the Major for a contempt of the Court, which was also disobeyed, the Sheriff returning that he could not take the Major without danger of his life. A subpœna was served also upon Lieutenant Manning, but he refused to obey it. In this state of things, and upon the affidavit of the Sheriff that the force of the county was inadequate to serve process on persons within the Fort, the presiding Judge despatched a messenger to Governor Gayle, calling on him for aid. This was the state of this unhappy affair at the last accounts.—*Baltimore Gazette.*

Warlike Symptoms.—"In addition, (says the Augusta Chronicle,) to the particulars given by the Columbus paper, it is stated, by a gentleman just arrived in this city, from Alabama, that 400 of the Alabama settlers were armed and encamped at the Pole Cat Springs, waiting the approach of the United States' troops, which (consisting of 150 men,) had moved on toward that place, with the determination to expel them by force."—*Savannah Republican.*

From present appearances, parties, in Alabama, relative to the proceedings of Gov. Gayle, will be nearly equally divided. The papers in that state are much less unanimous in supporting the position he has taken than was anticipated. The Mobile Commercial Register, one of the ablest and most influential political journals in the State, denounces the Governor in the strongest terms. "The positions assumed by the Governor," says the editor, "can never be sustained until the Ordinance of 1787—the treaty of cession by Georgia to the general government in 1802—and the Constitution of this state, to say nothing of the treaty of 1832, are swept from our public records." The Legislature of Alabama will convene in a few weeks, when the Governor will be obliged to lay the whole matter before that body. Several of the editors are already advising a delegation to be sent by the state to Washington.—*Wilmington Gaz.*

The whale fishing, at Van Dieman's Land, promises to be of great utility to the colonists. The fish are exceedingly plentiful on the coast this season; 96 fish have already been taken.

Extracts from the Review of the Philadelphia Market, ending Saturday evening, November 2, 1833, collected for the United States' Gazette, from actual sales.

COTTON—Arrived this week from Petersburg, Va., 184 bales, and from Wilmington, N. C., 83 bales. Total, 267 bales. The sales of the week have been trifling, and the transactions confined to small parcels of New Orleans at 16 a 16 1-2 cents, 4 mos; Georgia Uplands, 16 1-2 cents, 4 months, and a parcel of false packed do. at 15 3-4 cents, 4 months; a lot of new crop do. at 17 1-4 cents, 4 months; and 30 bales new crop Virginia at 16 1-2 cents. Advices per the Silas Richards, from Liverpool to the 25th Sept. There was an improved demand for cotton in the early part of the week, but the market has since been flat, and a further reduction of 1-4d per pound has been submitted to; the sales of the week amounted to 6,720 bales, of which about 400 American had been to speculators.

COFFEE—Considerable sales of Rio have been made at 12 1-2 a 13 cents, 6 mos., and 50 bags La Guayra at 12 3-4 cts. The cargo of the ship Missouri was offered at auction and sold at from 12 1-8 to 12 1-2 cts., on 30 days to 6 months cr.

FLOUR & MEAL.—The enquiry for superfine flour has been very limited, and the sales of the week, as far as ascertained, do not exceed 2,800 bbls. at $5 75, and 1,200 bbls. Brandywine City Mills Flour at $6 25; 100 bbls. middlings at $3 62 1-2, and a small parcel of scraped at $5 50. Rye Flour maintains its price; between 4 and 500 bbls. have been taken at $3 75; no sale of corn meal in hhds. reported; small parcels of barrels have been sold at $3 37 1-2. The sales of superfine flour on the Schuylkill side have been confined to small parcels to bakers at $5 75 a $5 81.

PROVISIONS—The Provision Market is without change, sales of small parcels of Jersey lard at 11 cts. Mess Beef, at 11 1-2, and prime at $9. Considerable sales of Butter, in kegs, *not* inspected, at 11 cents; and roll do. in barrels at 13 cts.

RICE—There has been more enquiry for Rice during the week, but the demand has been confined to the Grocers, at $3 37 1-2 a $3 75; the latter price being for very prime parcels.

SUGARS—But very little has been doing in this article. A small lot of white Havana at 11 1-4 at 4 mos.; and by auction, 16 hhds. New Orleans, at $8 05, and $8 25, 60 days cr.

WOOL—Large operations have taken place during the week in low grades foreign wool, for export; the terms, &c, have not been reported, but said to correspond with our highest quotations. Sales of about 12,000 pounds domestic fleeces and tub washed have been made at quotations. The stock is fast decreasing, and none coming to market.

NEW ORLEANS MARKET, Oct. 19.

The health of the city remains about the same as it has been for some time past: it may become better with the cool weather, or it may become worse, (the most probable,) by the influx of unacclimated persons, who, it would appear, hold life cheap, or they would not thus with such temerity, incur the risk. The Mississippi is still at near low water mark.

COTTON.—During the last few days the market has been dull, in truth we may say drooping; buyers are few, and unwilling to pay the rates hitherto current.

The article is coming in roundly, and the stock increasing. The sales of the week are: 20 bales at 18, 100 at 17, 100 at 16 3-4, 200 at 17 1-4, and 73 bales a crack mark, at 19 cents per lb.; all Louisiana and Mississippi Cotton.

SUGAR—Holders of the very small quantity on hand offer at 8 1-2 a 8 3-4 cents per lb., anticipating that the new crop now fast approaching, might, perhaps influence the market to their prejudice. There is very little doing in the market, and the only change we make is to reduce our highest quotation 1-4c per lb.

MOLASSES—We have only to say that nothing has occurred since our last report. There is none, if there was, it would bring, probably, the former rate, 27 cents per gallon.

TOBACCO—There is none in market for sale, and the only remark we hear among the merchants is relative to former transactions and shipment.—Cleared this week, for Boston, 47 hhds. Arrived, 6 hhds.

SIX EGYPTIAN MUMMIES

In the Diamond, next door to the office of The Pittsburgh Gazette.

THE features of some of these mummies are in perfect expression—the hair of the head preserved as if now living. For the direct purpose of giving visitors, of all descriptions, that wish to see the ancients themselves, and likewise the bodies that were embalmed not less than three thousand years ago, this collection was exhibited to a numerous concourse of visitors, in the city of Philadelphia, for the space of 3 months; and next in Baltimore, in the Museum, for five weeks, where contract was only made for two weeks, and continued for five weeks by request. The inhabitants of this city, it is hoped, will call, and patronize a collection worthy the attention of the curious.

The proprietor is authorized to use the names of the most eminent physicians and professors in the city of Philadelphia, and likewise that of Baltimore.

Paper Mill for Sale.

THE Extensive Establishment, known as the Soft Spring Paper Mill; now in the occupancy of C. Lukens & Co. is offered for sale.—Its situation is both desirable and healthy, possessing local advantages superior to any mill in the west, with a spring of pure, soft water, yielding a superabundance for all purposes—propelled by an engine sufficiently powerful, and to which has recently been added an entire New Machine for the manufacture of paper. Its location is about two miles from the city, on the Eastern Turnpike. The subscribers have no hesitation in believnig it offers inducements to purchasers highly advantageous.

The terms will be rendered satisfactory, and but a small portion of the purchase money required at the time of sale, with an extended credit for the residue, being determined to make an early disposal. It will be sold low. Application made personally, or by communication, to either of the subscribers, will be attended to.

Pittsburgh, Aug. 13, 1833.—2wtf

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
	other lots, containing about		6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

SATIN BEAVER
HAT MANUFACTORY,
NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S
☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY
FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]

REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning,* from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
